

Barcode label printing

Added: Version 4.01

You might want to print barcode labels for your stock if an existing label is damaged, if you break a box down into smaller pack sizes and the contents don't have individual GS1 barcodes or if some stock comes into your warehouses and it doesn't have valid GS1 barcodes on it.

mSupply prints barcode labels onto stocky labels using a label printer. Before you try to print any barcode labels you must setup your printer. See for [Label printing preferences](#) details.

There are several places in mSupply where you can print barcode labels for your stock.

The screenshot shows the mSupply Stock module. At the top, there are search fields for 'Item Name or Code' and 'Location or code', and buttons for 'Export to Excel', 'Customise', and 'Print barcode labels'. The main table lists items with columns: Item code, Item name, Batch, Expiry, Location, Packsize, and Stock on hand. Several rows are selected, and a confirmation dialog box is overlaid. The dialog box has a warning icon, the text 'Confirm...', and the message 'This will print a label for each pack of the selected lines. OK to proceed?'. It has 'No' and 'Yes' buttons, with 'Yes' being highlighted.
