# Imprest work flow

Version : v3.11 or v3.12 or later

The imprest module allows a pharmacy or warehouse to decide on quantities of drugs its receiver facilities (customers or Virtual stores) should receive. Periodically a stock take is carried out at the customer's site and drugs are replenished to meet the predefined (imprest) level.

The tutorial below suggest how an imprest should now be carried out.

We will assume that the facility or customer has been assigned with a suitable imprest list. If this is not the case then please do the following:

- Select Item > Show Item master list... from the menus to create a master list (see here for details).
- Assign the master list to the customer. See Item Lists > Assigning a list to a customer for instructions.

## **Create an Imprest**

Click on 'Requisitions' in the 'Customer' (or Patients) tab.. Click on the *New customer imprest* icon in he window which appears.

	v customer equisition	New customer imprest	ustomer history	Delete	
ID	Name		Date entered	Requisition date	Status

Type the first few few characters of the customer name in the Name field and press tab. A List of matching customers is displayed (unless only one customer name matches what you entered). Choose the intended customer and click the *Use* button.

to Enter new imprest				- • ×
Name med			Blac	
Stock take date 20/08/13				Entry date : 20/08/13
	Le Choose name			Status: nw Stock Type: im
Order Received 20/08/13	•			Entered by : Sussol
• -				Store: General
New line Delete line(s)	Create Cur New		Print	
Lin Item code Item Name	Unit	Code		Actual guan
	Medical Stores	MH03 A		Active quart
	Medical Ward	W02		
				_
	Double-click a name to cho	r Insa it		
	ovore-cite a name to cito			
		Cancel Use		*
<	Lesson and the second s			•
Confirm			( creat )	
Save Sort Order			Cancel	OK & Next OK

At this point the master list of items associated with the customer is displayed in its default sort order.

#### **Print the imprest**

The image below shows an example of what you now see: a list of items with their required imprest quantities. The next task is to print the list and carry out a physical stock take at the customer site.

First of all, make sure the list is in the correct order. If it is, fine. If not, re-order it as appropriate (by clicking on the column headers or dragging items up or down the list) and click on the *Save Sort Order* button.

Now print the list by clicking on the *Print* button <sup>Print</sup> and selecting the "Customer stock takes" option.

The print dialogue opens. Here you can add header and footer information for your printouts. Press OK when ready and print the list.

	030453	Amoxicillin 250mg tabs	Tab	2457600	0	5	0	5	5		
	038423	Salbutamol scored 2mg tabs	Tab	35000	0	4	0	4	4		
	042744	Diazepam Injectimg/ml Amp/2ml		1675	0	4	0	4	4		
	850804	Oral Rehydration1 litre/ CAR-100		16000	0	5	0	5	5		
	030062	Acetylsalicylic Acid 300mg tabs	Tablet	7000	0	3	0	3	3		
6	201116	Bandage W.O.W m wide x 5m roll	Roll	4560	0	2	0	2	2		
7	031661	Captopril scored 25mg tabs	Tablet	50000	0	4	0	4	4		
8	037020	Paracetamol 500mg tabs	Tablet	129000	0	6	0	6	6		
				1							
									_		

Please note that after printing the list you should not re-order it - it will be confusing later when you come to enter the counted quantities for each item.

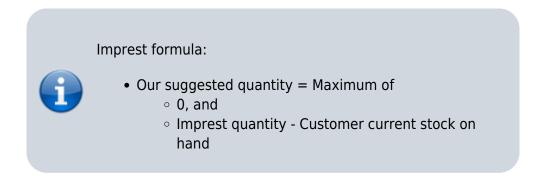

Now, using the printout, carry out the actual stock take.

#### Updating the stock quantities

After carrying out actual stock take at the customer's site it's time to enter the actual stock quantities. In the window displayed below, edit the value in the *Customer current stock on hand* column with the stock take quantities you've written on the print out for each item.

mSupply automatically completes other two columns (Our suggested quantity and Actual quantity

#### given).

_			_	_							

## Assigning stock

Once the updating of stock quantities is done and you are satisfied, you can click the *Create customer invoice* button to assign stock to the customer. Clicking the button will open the following window:

	r ref	oice from requisition		Category	None		Coo	Invoice : 21 Entry date : 20/0 ds received ID : 0	)3/18

								0 % tax:	0.0
								Total:	0.0

28.09. Imprest work flow

5/6

All the entries appear in red - they are **placeholder** lines which have the correct quantity but have no batch chosen (notice 'none' in the batch column for each line). You have to double-click each line in turn and select which batches you wish to assign to the customer.

As an example, you will see the window below when you double click an item line:

Line Quar		5 of 0	Tota	1	5							
Pac		1 Tablet				er pack size	. 0					
						· .						
	Add Pl	ace holder		Re-distri	ibute	all	Re-lookup Se	II Price				
L	Issue	Available	Tot in st	Pack	Н	Batch	Expdate	Supplier	Location	Cost Price	Sell price	Status
1	5	0	0	1		none				0.00	0.00	
2	0	21595	2397.595	1000				invad	B1	0.00	0.00	
3	0	14	20	500		17KD003	9/12/17		B1	0.01	0.01	
4	0	0	50	1000		K568672	9/12/17		B1	0.03	0.03	

Normally you would click on the *Re-distribute all* button to have mSupply make the appropriate selection for you (it chooses batches with shortest expiry first). Having done that, the window now appears like this:

2025/08/12 22:31

Quai Paci		1 of 219 00 Tablet			1000 /Out	er pack size	. 0					
	Add Pla	ce holder					Re-lookup Se	II Price				
L	Issue	Available	Tot in st	Pack	Н	Batch	Expdate	Supplier	Location	Cost Price	Sell price	Status
1	0	0	0	1		none				0.00	0.00	
2			2397.595						B1		0.00	
3	0	14	20	500		17KD003	9/12/17		B1	0.01	0.01	
4	0	0	50	1000		K568672	9/12/17		B1	0.03	0.03	

Clicking on *OK* & *Next* displays the next item on the invoice. When the final item has been processed, clicking on *OK* or *OK* & *Next* will display the complete invoice (all red lines replaced with black lines with the chosen batch displayed). The image below shows the invoice part way through this process:

When you've selected batches for every line, make sure the *Hold* checkbox is not checked then confirm the invoice to assign the stock to the customer. Now all you have to do is print off the pick list, physically pick the stock off the shelves and send it to the customer. Congratulations - job done!
