

20.09. HIS preferences

****Organisation name:** ****** Enter the hospital name here.

****Country:** ******Enter the country you are located in.

****Max picture size:** ******Enter the maximum size of patient pictures that can be inserted. We suggest you set this value to 500KB.

****Maximum number of users:** ****** Enter the maximum number of users that can log into the HIS system at one time. For example, if you purchase a 10 user licence, and assign 6 users to the HIS system, it will allow 4 users to log in to the pharmacy (mSupply) module.

The screenshot shows a standard macOS-style dialog box titled "HIS Preferences". It contains four labeled text input fields arranged vertically: "Organization Name", "Country", "Max picture size" (which is followed by "0 KB"), and "Max number of users". At the bottom right of the dialog are two buttons: "Cancel" and "OK".
