

17.20. Exporting sites

This function allows you to export selected sync sites from a central server so that they can be imported into a fresh, new datafile for use at a remote site.

For details about this function, see the [29.04. Sync Site Export](#) page.

Previous: [17.19. Exporting to MYOB](#) | | Next: [17.21. Exporting assets](#)
