

Importing prescribers

*

Applicable in Dispensary mode only

From the *File* menu, choose *Import Prescribers*, and the *Import alert* window is displayed.

You may import a list of prescribers who have the authority to prescribe medicines.

Your list should be in the format of a 6-column spreadsheet, saved as a tab delimited file. The columns should be in the following order: <HTML>

</HTML>

Column 1	Unique code for each prescriber
Column 2	Last name
Column 3	First name
Column 4	Initials - these will appear on patient labels
Column 5	Registration code
Column 6	Category

<HTML>

</HTML>

Your tab delimited spreadsheet file would appear something like this:

Choose import options from the preview window and click **OK** to begin import.

// Previous: [Importing Customers, Suppliers, Patients](#) Next: [Importing abbreviations](#)//
