4.01.22. Items - Interactions tab

Back to Item Details window

This tab is read only and displays the interactions this item has with other items. These interactions are automatically downloaded from the universal code server (https://codes.msupply.foundation/) when a unbiversal code has been applied to the item. See the 4.01.01. Items - General tab page for details on how to assign a universal code to your items.
