By default all stock is listed, and where the stock of an item is present in different batch numbers, each one is displayed.

Customising the list

You can choose the columns displayed by clicking on the **Customise** button to display this window:

| Available | 7 | Chosen | |
|--------------|-------|---------------|--|
| Cost price | | Item code | |
| Sell price | | Item name | |

Listed under **Available** are the columns not presently displayed, and under **Chosen** are the columns presently displayed. Changes are made by highlighting your chosen column on this window, and moving it using the buttons in the centre to add or remove it from the display. You can order the list by a specific column of your choice by clicking on the column heading.

Printing/exporting the contents of the table

You can export the stock information on the items displayed in the table by clicking on the *Export to Excel* button. Only the items displayed in the table will be exported and a fixed set of columns will be exported - this set is not affected by any changes you make to the displayed columns using the *Customise* button described above.

In your spreadsheet application you can manipulate or print the data as you please.

Filtering the list

Entering the item name or code in the box will filter the list; entering the first few characters of an item name will display only those items which begin with those letters (or numbers).

| Item N | ame/Code amoxy | | Location/code | | | |
|-----------|--|-----------|---------------|----------|-----------|---------------|
| Item code | ltem name | Batch | Expiry | Location | Pack size | Stock on hand |
| AMOXT | AMOXYCILLIN 250MG TAB/CAP | AA0001 | 30/11/13 | 06 B | 1 | 50000 |

| | | | | | | |
| | | | | | | |

To display a specific item, either the item code or the full name should be entered.

To find all items containing **ran** enter **@ran** which will display all items which include the characters entered, not only those items where the characters entered are at the start of the item name - e.g. this will not only display any Ranitidine in stock, but will also display `Py**ran**tel', `Nitrofu**ran**toin', Prop**ran**olol', etc..

Filtering by location

Alternatively you can filter by location. Leave the first search box blank and enter a location into the second search box. This will show only the items with that location.

| Item code | | | Location/code | 00 8 | | |
|-----------|--------------------------|-----------|---------------|----------|-----------|---------------|
