

## 11.04. Cash register

The **Cash Register** allows you to see and create in and out payments for the customers and patients in your store. It also shows you the current balance of the cash register and you can use it to manage cash reconciliation in a store if you are using a physical cash repository of some sort.

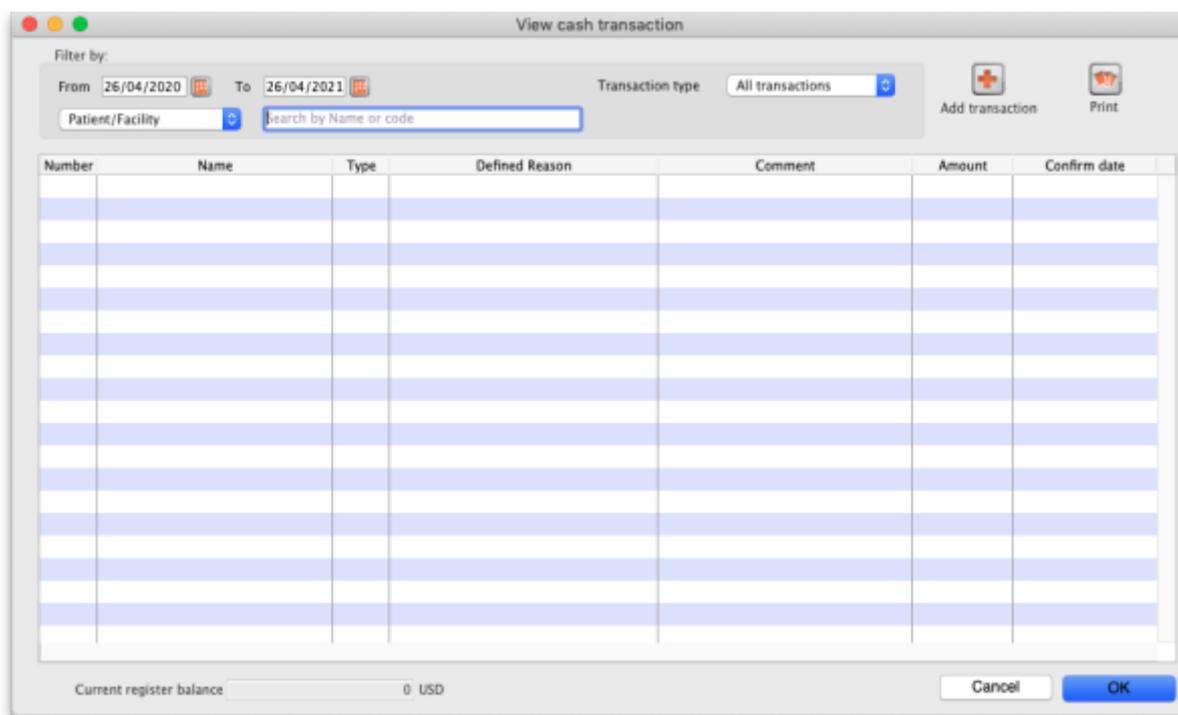

Any payments made in the [customer receipts module](#), [supplier payments module](#) or [made on a prescription](#) will also be show here. Those payments differ to those made in this module in that they are attached to a transaction (customer invoice or prescription). Any payments made in this module are not attached to any other transactions.

### Viewing the cash register

1. Click the **Special** tab in the navigator.
2. Click the **Cash Register** button:

3. The **Cash Register** will open:

By default the window will show all of today's transactions when it opens but you can use the filters at the top in the *Filter by* section to see just the payments you want in the table.

The *Current register balance* shows you the current balance of all the in and out payments in the datafile - this is the amount of cash you should have in your physical cash repository if you're using one.

For each transaction in the table you can see:

- Who the cash was received from or paid to
- Payment type:
  - **rc** is a cash receipt (cash paid to you by a customer or patient)
  - **ps** is a cash payment (cash paid by you to a supplier)
- Amount received or paid, where a **positive** number is **cash in** and a **negative** number is **cash out**
- Date of the transaction
- Other details such as reasons and comments

## Adding or removing cash

All transactions involving payments will be *automatically* added to the cash register. Those payments are made using the customer receipts module, the supplier payments pmodule or by receiving payments on a prescription and all those payments are conpnncted to their transaction.

You can use this cash register functionality to manually add **cash in** or take **cash out** from the cash register, without it being attached to another transaction. For example, this may be necessary for depositing cash in the bank.

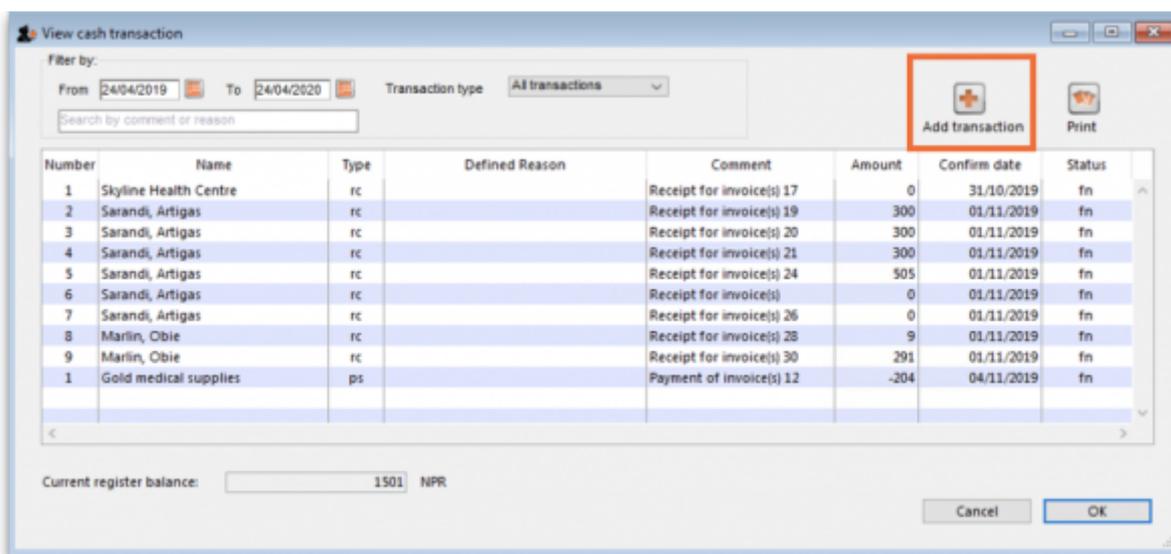

You can set permissions to allow users to manually add **cash in** or take **cash out** from the cash register.

## Permissions for manual cash in/out transactions

Users need to have the **Create cash transactions** permission set on the **Permissions(2)** tab of the user's details window to be able to add or remove cash from the cash register. See the [Managing users page](#) for details.

## Manual cash in/out transactions

1. Click the **Add transaction** button:

Note: If the user does not have permission to make cash register transactions, an alert message will appear and they will not be able to proceed.

2. The Add cash transaction window appears:

The screenshot shows a dialog box titled "Add cash transaction". It contains several fields: "Invoice Number" (2), "Entered by" (user 1 (pass= user)), "Entry date" (04/11/2019), and "Confirm date". The "Name" field is highlighted with an orange box and contains "National Bank" with a dropdown arrow. Below it, "NBK" is listed. The "Transaction type" dropdown is set to "Cash out". The "Amount" field contains "500". The "Option" dropdown is set to "Bank deposit". The "Description" field contains "Weekly bank deposit". The "New cash register balance" is "1001". There are "Cancel" and "OK" buttons at the bottom.

Add the **Name** of the person/organisation who is giving you the cash or receiving it from you (type the first few characters of their name and press the *Tab* key on the keyboard to select the right name from the list of those matching what you typed).

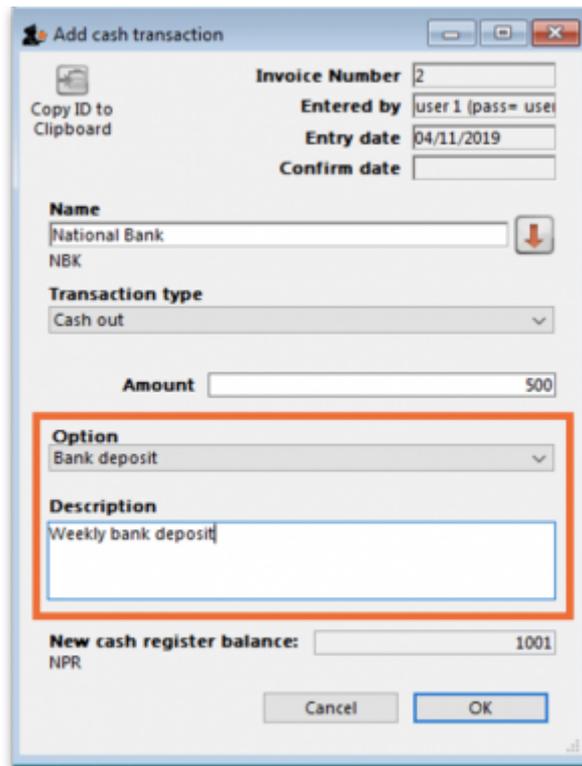

3. Select the **Transaction Type** from the dropdown list: **Cash out** (remove cash) or **Cash in** (add cash) and enter the **Amount** of cash being removed or added:

The screenshot shows the same dialog box as above, but the "Transaction type" dropdown is highlighted with an orange box and set to "Cash out". The "Amount" field still contains "500". The "Option" dropdown is still set to "Bank deposit". The "Description" field still contains "Weekly bank deposit". The "New cash register balance" is still "1001".

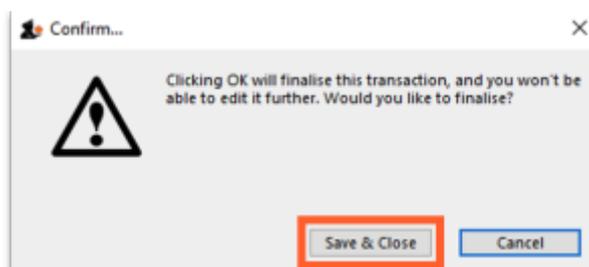

4. If you are making a cash out transaction and the **Option** dropdown list is activated, you must

select a reason for removing cash. You may also add a **Description** to give further details of the transaction:

 The **Option** drop down list will be activated when you are making a *Cash out* transaction if you have entered Cash out transaction reasons on the Options tab of the Preferences (see the [Preferences > Options](#) section for details).

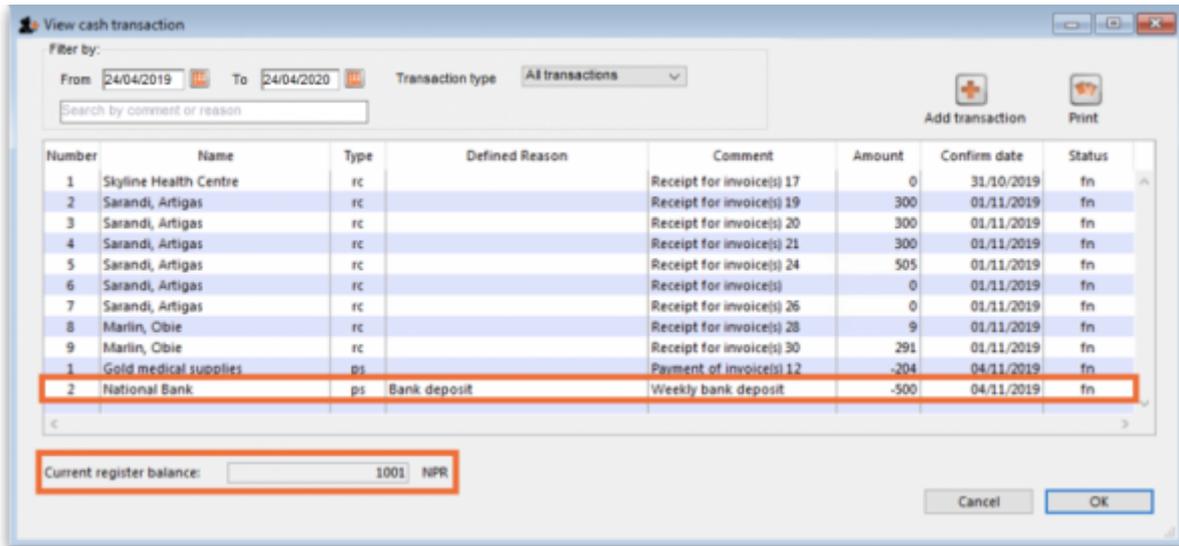

5. Click **OK**, then click **Save & Close** to finalise the transaction:

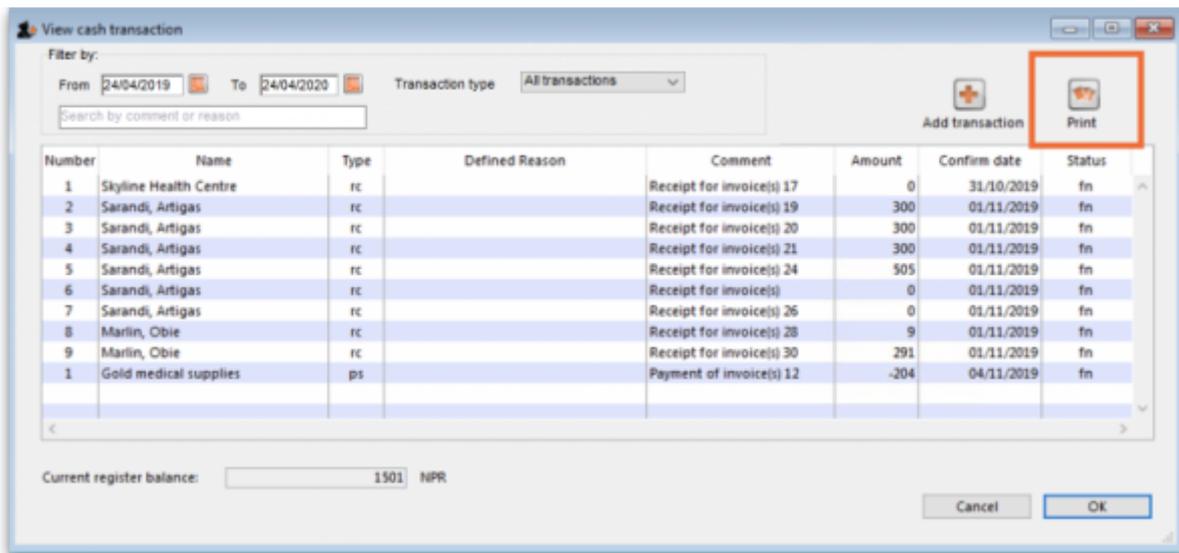

Once finalised, the transaction can no longer be edited.

6. The new transaction will now appear in your cash register and the **Current register balance** will be updated.

## Printing a cash transaction report

1. Click the **Print** button:

2. An Excel spreadsheet will open containing the list of transactions shown in the table. If you want different transactions to appear in the report, change the filters before clicking the **Print** button.

Cash transactions							
Invoice Number	Name	Type	Option	Amount	Status	Confirm date	Comment
1	Skyline Health Centre	rc		0	fn	31/10/19	Receipt for invoice(s) 17
2	Sarandi, Artigas	rc		300	fn	1/11/19	Receipt for invoice(s) 19
3	Sarandi, Artigas	rc		300	fn	1/11/19	Receipt for invoice(s) 20
4	Sarandi, Artigas	rc		300	fn	1/11/19	Receipt for invoice(s) 21
5	Sarandi, Artigas	rc		505	fn	1/11/19	Receipt for invoice(s) 24
6	Sarandi, Artigas	rc		0	fn	1/11/19	Receipt for invoice(s)
7	Sarandi, Artigas	rc		0	fn	1/11/19	Receipt for invoice(s) 26
8	Marlin, Obie	rc		9	fn	1/11/19	Receipt for invoice(s) 28
9	Marlin, Obie	rc		291	fn	1/11/19	Receipt for invoice(s) 30
1	Gold medical supplies	ps		-204	fn	4/11/19	Receipt for invoice(s) 12
Current register balance:		1501					

You can now save and/or print the spreadsheet from Excel.
