

11.03. Prescription payments and credits

Prescription payment preferences

To receive payments for prescriptions in a dispensary, go to [Dispensary Mode Preferences](#) and check the **Receive payments from prescription window** box.

Once activated, a **Payment** tab will appear in the *Prescription Entry* window:

The screenshot shows the 'Prescription Entry' window. The 'Payment' tab is selected and highlighted with a red box. The window contains various fields for patient details, prescriber information, and a table for items. The 'Amount paid by patient' field is set to 0.00. The 'Subtotal' is 300.00, and the 'Total' is also 300.00. The 'Amount Outstanding' is 0.00. The 'OK' button is highlighted in blue.

Line	Location	Item Name	Quan	Pa...	Batch	Exp date	Sell Price	Price exten
1		ABACAVIR 300 MG CP	2	1	fgb1234	31/07/20...	150.00	300.00

Entering the payment

To enter a payment from the Prescription Entry window:

1. Click on the **Payment** tab.
2. Enter the amount to be paid for this invoice today in the **Amount paid by patient** field, then press the *Tab* key on the keyboard:

Prescription Entry

Patient details

Name: Patient, Test Date of birth: 00/00/00 Female ☐ Black

New Patient Code: testp01 Address:

Store: AKPESSEKRO (CSR-D PUBLIC)

Prescriber: Search Prescriber Confirm date: 00/00/00 Entered: 27/04/2020

Code: Prescription date: 27/04/2020 Invoice: 289

Entered by: Sussol

Items: Payment

This invoice will be automatically finalised if a payment is entered.

Cheque #: Note

Invoice total: 300.00

Total outstanding: 300.00

Available credit: 0.00

Amount paid by patient: 300.00

Amount paid by credit: 0.00

☐ Finalise Export batch: 0 Status: nw ☐ Print receipt OK & Next Delete OK

In this example, the invoice is \$300 and the patient will pay the full cost today in cash.

3. A confirmation window will open:

Prescription Entry

Patient details

Name: Patient, Test Date of birth: 23/11/1974 Female ☐ Black

New Patient Code: Testp01 Address:

Store: AKPESSEKRO (CSR-D PUBLIC)

Prescriber: Search Prescriber Confirm date: 00/00/00 Entered: 04/06/2020

Code: Prescription date: 04/06/2020 Invoice: 431

Entered by: Sussol

Items: Payment

Other details

This invoice will be automatically finalised if a payment is entered.

Cheque #: Note

To Pay

Invoice total: 300.00

Total to pay: 300

Patient's credit status

Current balance: 0.00

Credit limit: 0.00 Available credit: 0.00

Payment details

Amount paid by credit: 0.00

Amount paid by patient: 300.00

Total payment: 300

Amount given: 500

Change to give back: 200

☐ Finalise Export batch: 0 Status: nw ☐ Print receipt OK & Next Delete OK

Enter the actual amount given by the patient in the **Cash given** field and press the *Tab* key on the keyboard. mSupply will calculate the change that must be given back to the patient and show it in the **Change required** field.

In this example, the invoice is \$300 and the patient is paying with a \$500 note. mSupply calculates the change to be returned is \$200.

If you have setup other payment types in the preferences (see [16.10. Options \(standard reasons\)](#)) then you can select the type of payment being made in the **Payment type** drop down list.

Please note: You cannot overpay a prescription. If you edit the **Amount paid by patient** field to be more than the invoice total you will be shown a message and the **Amount paid by patient** will be reduced back down to the invoice total.

4. Click **OK** to **finalise** the prescription and payment and close the window (if a payment is entered the prescription will be automatically finalised, you have no choice). If the **Print receipt** checkbox is checked then a payment receipt will print at this point.

Once you click OK, the prescription and payment are finalised and can no longer be edited. Check carefully before pressing OK!

Paying with credit

Patients can be given a credit limit (see [10.03. Patients](#)) and can use some or all of that credit at any time to pay off some or all of a prescription. Patient credits (see below) and cash paid into the cash register by a patient will add to the amount of credit a patient can use. Credit will also be added to a patient when they return goods using a patient credit (see below).

The process of using credit in a payment is exactly the same as the payment process described above. The only difference is that, if the patient has some credit available, mSupply will automatically use as much as it can to pay for the patient's prescription. You can see the amount of credit the patient has available (made up of their credit limit and patient credits applied to them) in the **Available credit** field and the amount of credit used to pay for the prescription in the **Amount paid by credit** field:

Prescription Entry

Patient details

Name: Patient, Test Date of birth: 04/11/1963 Female
New Patient Code: pattest Address:
Prescriber: Search Prescriber Confirm date: 00/00/00
Code: Prescription date: 18/05/2020 Patient type: Inpatient
Store: AKPESSEKRO (CSR-D PUBLIC)
Entered: 18/05/2020 Invoice: 442
Entered by: Sussol

Items Payment

This invoice will be automatically finalised if a payment is entered.

Cheque #
Note

Select Insurance

Invoice total	58.00
Payable by insurance	0.00
Total outstanding	58.00
Available credit	100.00
Amount paid by patient	0.00
Amount paid by credit	58.00

☐ Finalise Export batch: 0 Status: nw ☐ Print receipt OK & Next Delete OK

In this example, the patient has 100 credit available (made up of their credit limit only, which is 100) and all 58 of their prescription charge has been paid with the credit.

If you or the patient does not wish to use their credit, or wishes to reduce the amount of their credit used to pay the prescription, simply change the amount actually paid by the patient in the **Amount paid by patient** field and press the **Tab** key on the keyboard so that mSupply re-calculates the amount paid by credit. Here is a screenshot if the patient in the example above decides to pay 10 towards their prescription and only use 48 of their credit:

Prescription Entry

Patient details

Name: Patient, Test
 Date of birth: 23/11/1974
 Female
 Store: AKPESSEKRO (CSR-D PUBLIC)
 Entered: 04/06/2020
 Invoice: 431
 Entered by: Susael

Payment

Other details

This invoice will be automatically finalised if a payment is entered.

Cheque #
 Note

To Pay

Invoice total: 300.00
 Total to pay: 300.00

Patient's credit status

Current balance	100.00	Available credit	100.00
Credit limit	100.00		

Payment details

Select the payment type

Amount paid by credit	100.00
Amount paid by patient	200.00
Total payment	200.00
Amount given	0
Change to give back	

☐ Finalise Export batch: 0 Status: on ☐ Print receipt

If the **Amount paid by patient** field is not zero when you click on the **OK** button, the change calculation window appears as normal. If **Amount paid by patient** field is zero when you click on the **OK** button, the prescription is simply closed as there is nothing more to be done - the prescription cost is taken off the patient's available credit as appropriate.

Patient credits

You can allocate funds in a patient's favour by giving them a **Patient Credit**. You might need to do this if, for example, a patient returns faulty medicines they already paid for. Patient credits will be *subtracted* from future invoices until all credits are used.

1. In the menus, choose **Patient > New patient credit...**:

2. Enter the patient in the **Name** field just as you would for a prescription. You can also enter other details such as a **Reference** (e.g. the prescription number this patient credit is related to) and a **Note**

explaining why a patient credit is being issued.

3. Click the **History** button to view the items previously dispensed to this patient:

Patient credit

☒ Finalise Export batch: 0 Status: nrw ☐ Print receipt OK & Next Delete OK

You can also add items *not* linked to a patient's history by clicking the **New line** button and entering item details just like you would for a prescription.

If you *only* want to allow users to issue patient credits for items linked to a patient's history, turn on the **Limit patient credits to previously prescribed items** preference in the **Invoices 2** tab of **File > Preferences** (see [Invoices 2 Preferences](#)). This will disable the **New line** button, and all items must be selected from the **History** button.

6. Once you are sure the patient credit is correct, check the **Finalise** box and click **OK**.

Remember you have also just returned items to your mSupply inventory! If you are going to destroy returned items, you now need to remove them from your mSupply inventory in a separate transaction (either a **Reduce stock Inventory Adjustment** or a **Stocktake**).

When the patient pays for their next prescription, their credit will be *automatically* applied in the Payment window.

In this example, the patient's current prescription is \$300 but they had a \$100 credit which is automatically applied to the invoice. Now, they only need to pay \$200.
