13.11. Custom fields

You can create custom fields that appear in different areas in mSupply. These allow you to record additional information and customise mSupply for your needs.

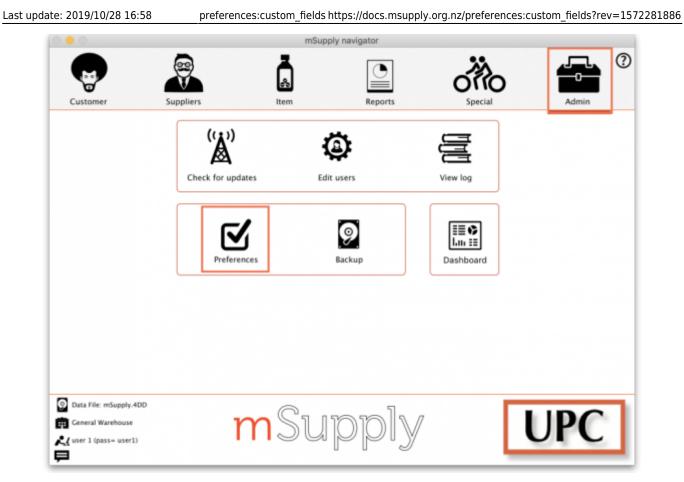

You can create custom fields in the following areas:

- Customer invoice
- Supplier invoice
- Store
- Requisition
- Item
- Item category
- Quote line
- Name (of customers, suppliers, prescribers etc.)
- User

Only edit custom fields if you are confident with the information in this page and fully understand the content. Otherwise you could cause some things to stop working in your copy of mSupply! This is true for all settings, but please be especially careful with custom fields.

Creating custom fields

1. Navigate to the Admin tab and click the Preferences button.

2. Select **Custom Fields** from the list on the left.

3. Select the area requiring custom fields from the **Table to set custom data fields for** dropdown list.

• • •	Prefere	mces	
Reports Names Tender	Table to set custom data fields for item	New field Delete field(s)	
Reminders	Field label	Field type	
Patient Medication			
Drug Interactions			÷ —
Registration			Add item Delete Item(s)
Printing			Add item Delete item(s)
OK and print			List

DHIS2			
Stock			
Custom fields			
Barcode scanning			
Options			Cancel OK

4. Click the **New Field** button.

5. Click on the new line in the Field Label column to change the name of the custom field.

6. Click the small arrow in the **Field Type** column and choose from the drop-down list. The options for your new field are:

- Text: User can type free text.
- Number: User can only type a number.
- **Boolean:** User can tick a checkbox.
- Date: User can only enter a date.
- List: User can only select an option from a list.

	Prefere	nces	
Names Tender	Table to set custom item 😮	New field Delete field(s)	
Reminders	Field label	Field type	
Patient Medication	Approval by	List -	
Drug Interactions

Barcode scanning Options						Cancel	ОК

7. Click **OK**.

If you want to delete a custom field, highlight the line and click **Delete field(s)**.

Using custom fields

This section shows how custom fields appear after they are created.

Customer invoices

When creating a customer invoice:

Click the **Custom Data** tab.

In this example, we added two custom fields: a **Date** and a **List** field type.

2025/08/12 10:52

Finalise Margin: 0.00		OK & Next	Delete OK 🕞

Stores

When creating a store:

Click the **Custom Fields** tab.

In this example, we added one custom field: a **Number** field type.

• • •		New store	
Merio Health Centre	General Preferences I	ogo Custom fields Master lists	
	Field label	Field value	
	Number of staff at facility	2	
	Field Typ	e = Number	
		Cance	ОК
