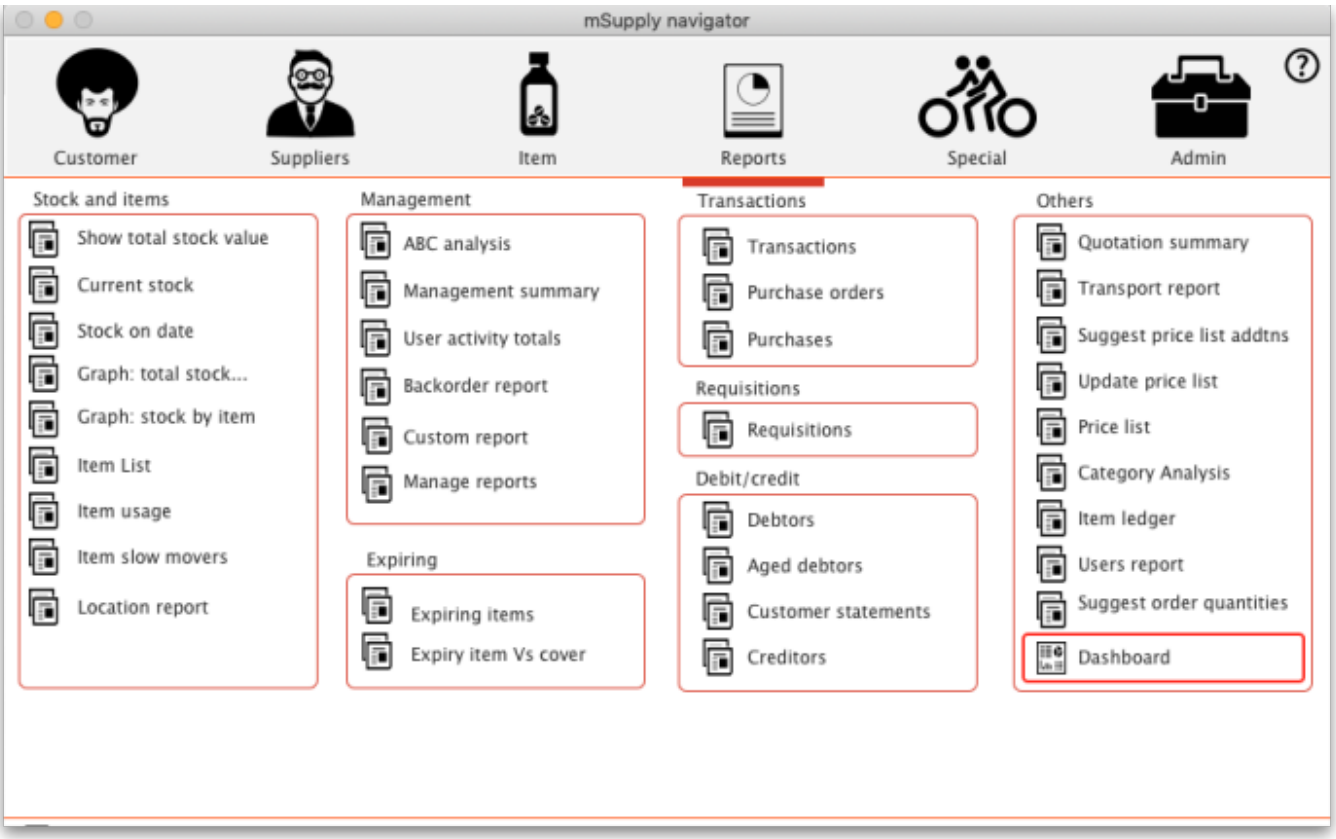
13.06. Dashboard

The mSupply dashboard is very helpful for providing visual representations of your data to support analysis and decision making at all levels of the supply chain.

To see all the information about the dashboard, please see the separate documentation for it here https://docs.msupply.foundation/en:dashboard.

To access the dashboard, you can click on the *Dashboard* button on the *Reports* tab of the Navigator:



If your dashboard has been setup and you have permissions to login to it (see details on setup here https://docs.msupply.foundation/en:dashboard:getting_started) then the dashboard will be opened in your browser.

Previous: ***13.06. Requisition reports*** | | *Next:* ***13.09. Customer ordered shortfall report***
