

18.10. Supplier instructions for submitting tenders via Excel

Introduction to the tender response template

As a supplier, you may be invited to participate in a tender managed using mSupply. The client may send you a tender response template Excel document in xlsx format, which you are expected to complete and submit for evaluation. This allows the client to import bid responses from multiple suppliers, and easily compare them within the mSupply Tender Module.

You must use Microsoft Excel 2016 or newer to view and edit the tender template.

The tender template will look like this. You can also download a reference template from here:

[supplier_tender_reference_template.xlsx](#)

The **yellow** section contains the item that you may bid for. **Do not modify any contents of the yellow section.**

The **blue** section is where you can enter the price for the items you wish to bid on.

The Excel template contains three worksheets. **Do not modify the name of the worksheets.**

- **TenderItems:** Main worksheet containing the tender items, as shown above.
- **ManufacturerList:** Contains the manufacturers that populate the [manufacturer dropdown list](#) in the main worksheet. If a new manufacturer is required, add it directly in the TenderItems worksheet.
- **CurrencyList:** Contains the available currencies that populate the [currency dropdown list](#) in the main worksheet. If a new currency is required, add it directly in the TenderItems worksheet.

The currency and the manufacturer column should appear as a [dropdown list](#). If this doesn't work, please make sure you are using Microsoft Excel and that the version supports xlsx file format.

Do not change the cell format. If the cell is set to text or number, then it must be left as it is. Changing the cell to a different format will cause issues later with information potentially being lost.

The Excel file has the header row frozen, allowing you to scroll down the list and enter data while still being able to view the corresponding header.

Currency

This specifies the currency for your quote, which is set for each item. Select an available currency from the dropdown list.

To be completed		
Mandatory fields		
ck [DAT all]	Currency	Expiry Date
	<input type="text"/> <div style="border: 1px solid #ccc; padding: 2px; width: 150px; height: 150px; display: none;"> NPR USD AUS INR </div>	

If the required currency is missing, it means the client has never handled this currency in mSupply before. You may enter the new currency in this column using the appropriate three letter abbreviation

from this link:[Currency Abbreviation](#).

To be completed by supplier				
Mandatory fields		Non mandatory		
Item	Currency	Expiry Date	Delivery time	Supplier item code
	CAD			Manufacturer

The example above shows Canadian Dollars (CAD) is being quoted for this item. Excel will alert you that this is a new currency. Click OK to continue with the new currency.

On your next tender with the same client, your currency of choice should already be present on the spreadsheet.

Manufacturer

This specifies the manufacturer for your quoted item. Select an available manufacturer from the dropdown list. Typing the first few letters will show a list of matching manufacturers.

Non mandatory fields	
Manufacturer Name	Comments

If the required manufacturer is missing, it means the client has never recorded goods from this manufacturer in mSupply before. You may enter the new manufacturer in this column. Excel will alert you that this is a new manufacturer. Click OK to continue with the new manufacturer.

Prefilled by supplier		Non mandatory fields	
Delivery time	Supplier item code	Manufacturer Name	Comments
		new manufacturer
