

16.04. mSupply customer web interface: guide for customers

The first section of this page covers the use of the interface itself by the customer. There is a small [Back at the supplying store...](#) section at the end which describes what happens in mSupply in response to the orders sent by the customer.

Logging in

You will be given an website address for the customer interface. e.g.

<http://example.com:8080/customer/>. Go to that address using an internet browser running on a smartphone, laptop, tablet or desktop computer etc.

When it has loaded (the time this takes will depend on the speed of your internet connection), you will be shown the login page:

Enter your username and password and click **Login**

The navigator

You are now shown the mSupply customer navigator screen:

Here we are logged in as user “Mike.Smith” who works for the customer “Alpha Clinic”.

The “Alpha Clinic” is set to use the store “General Warehouse” as their supplying store.

Click on:

- [Show Orders](#) to view a list of orders that have been created but not yet completed.
- [Create Order](#) to create a new order for stock from the supplying store.
- [Search Items](#) to search a list of items available in the supplying store.

Show orders

Select **Show Orders** to display a list of orders that have been created.

NAME	ORDER NUMBER	STATUS	ENTERED DATE	AMOUNT (APPROX.)
Alpha Clinic	32	wp	2019-06-10	0
Alpha Clinic	31	wf	2019-06-06	0
Alpha Clinic	28	wf	2019-06-06	0

To view or edit an existing order, click on the order in the table to highlight it, then click on the **View/Edit** button (top right)

To delete an existing order, click on the order in the table to highlight it, then click on the **Delete** button (top right)

Status wp indicates web interface orders that have been created and are still in progress (not yet finalised). These can be edited/deleted.

Status wf indicates web interface orders that have been finalised by the customer. These can be viewed, but not edited or deleted.

Click on **HOME** (top left) to return to the main options screen.

Create orders

Click on **Create Order** to display the screen for entering an order:

The screenshot shows the 'Order Details' screen. At the top, there are buttons for 'HOME', 'Order Details' (highlighted in red), 'FINALISE' (green), and 'SAVE CHANGES' (grey). On the left, a sidebar displays: 'Invoice number: 0', 'Entry date:', 'Entered by:', 'Status:', and 'Store:'. The main area has fields for 'Our ref:' and 'Comment:', both with empty input lines. At the bottom, there are buttons for 'ADD LINE' (orange), 'DELETE LINE' (grey), 'ADD LINES FROM ORDER LIST' (orange), and 'UPDATE QUANTITY' (grey).

To add an item to the order, click the **Add line** button.

In the pop-up window clicking the **Item name** field will open a drop down list to select from

The screenshot shows a 'Add item' pop-up window. It has a text input field labeled 'Item name' with a placeholder. Below the input field is a scrollable list of items: 'Acetylsalicylic Acid 100mg tabs (1300)', 'Acetylsalicylic Acid 300mg tabs (5000)', 'Amoxicillin 250mg tabs (2257600)', 'Amoxicillin Dry Powder for Suspension 125mg/5ml Bot/100ml (420)', 'Artesunate Injection Ampoule/60 mg (5700)', and 'Bandage W.O.W. 15cm wide x 5m roll (4332)'. The list is currently showing the first six items.

Enter the quantity and click **Add to order** to proceed

If you wish to continue working on the order later, click the **Save changes** button.

When you have completed the order, click on the **Finalise** button. This will submit the order to the supplying store in mSupply and no further changes will be possible. It will now be visible under the *Show Orders* option **until the supplying store processes it**. It is also visible and available for processing in mSupply at the supplying store.

user can edit the order. The customer invoice displays the customer's order with placeholder lines by default. This gives the mSupply Desktop user control to choose the stock for the customer's order.

To choose stock see the re-distribute section: [Redistribute placeholder lines](#).

Using an order list

If you have been assigned an Order List of the items you are allowed to order, this can be used when you are creating an order. Clicking the **Add lines from Order list** button will display the items on the list(s) defined for the customer logged in.

For setting up a default order list, see [Names: Using, adding and editing](#)

The list will be displayed with the items in the same order as was specified when setting up the list in mSupply.

Search items

Click **Search Items** to make a search of items available in the supplying store. It will display this screen:

The screenshot shows a search interface titled 'Search for items'. At the top left is a 'HOME' link. On the right is a 'ITEM DETAILS' link. Below the title is a search bar with the placeholder 'Find items where'. The search bar has dropdowns for 'Item Name' and 'Starts with'. To the right of the search bar is a 'Search' input field and a 'Select Category' dropdown set to 'Any'. At the bottom is a red 'SEARCH' button.

Choose your search options using the selectors and enter something to search for in the textbox (or leave it empty to list all the items). Click on **Search** and the search will be made. When the search is complete the list of items matching your search criteria will be displayed:

Back at the supplying store...

All orders finalised in the customer interface are sent to the customer's supplying store in mSupply. The mSupply operator logged into the supplying store will see these orders as **wf** status customer invoices.

These invoices contain placeholder lines representing the quantities ordered by the customer. The mSupply operator at the supplying store must then assign stock to these lines in the normal way (see the [Editing a placeholder line on an invoice](#) and surrounding sections for details).

As soon as the operator has closed the **wf** status invoice and closed it again (whether they have edited it or not) in mSupply, the invoice is changed to **sg** status (unless it has been placed on hold) and it will no longer be visible in the customer interface.

When stock has been applied to the various lines, the invoice is processed in the normal way (see the [Issuing goods to a customer \(customer invoices\)](#) section for details) to create the picking list and dispatch note as required before the goods are dispatched to the customer.
