

## 25.04. Schedules and periods

### Schedules and periods

**Schedules** are regular timeframes (e.g. monthly, fortnightly) that may be used for cyclical operations, such as program orders (special types of requisitions). There is no limit to the number of schedules.

**Periods** are specific timeframes which exist *within* schedules. Periods have a distinct start and end date. They must be sequential and must not have any overlapping dates or gaps between periods.

### Permission to add/edit schedules and periods

In a [sync system](#), schedules and periods must be added on the **central server** and will then sync to other sites. Permission must be switched on for a user to add/edit schedules and periods.

1. Go to **Admin > Edit Users** > double click the user to be edited > **Permissions**.
2. In the Admin section, check the **Edit periods and period schedules** box.
3. Click **OK**.

**Edit user**

User:  Store:

General **Permissions** Permissions (2) Permissions (3) Login rights Details Dashboard

**Ordering**

- ☐ View purchase orders
- ☐ Delete purchase orders
- ☐ Edit purchase orders
- ☐ Edit purchase order pricing

## Adding schedules and periods

1. In the menu bar, click **Special** then **Periods...**
2. To create a new schedule, click the plus icon next to **Schedules**.

3. Name the schedule and click **Save**.

4. To add periods within a schedule, highlight the schedule and click the plus icon next to **Periods**.

**Schedules & Periods**

**Schedules**

Name
Fortnightly
Monthly

**Periods**

Name	Start date	End date

Cancel Save

5. Name the period, enter its start and end dates, then click **Save**. You can type dates in the boxes or click the icon to select dates from the calendar.

**Add/Edit a Period**

Schedule: Monthly

Name: January 2020

From: 1/1/20 To: 31/1/20

Cancel Save

6. Keep adding all the periods within the schedule. If necessary, you can edit a period by double clicking on it.

7. When you are finished, click **Save**.

**Once a schedule has been saved, it CANNOT be edited.**

Check closely before clicking the final **Save** button!

**Schedules**

Name
Fortnightly
Monthly

**Periods**

## Using Schedules in Programs

The most common use of schedules is for setting up programs for supplying different facilities on different schedules. You can read more about using programs [here](#)
