

21.04. Schedules and periods

Schedules and periods

Schedules are regular timeframes (e.g. monthly, fortnightly) that may be used for cyclical operations, such as program orders. There is no limit to the number of schedules.

Periods are specific timeframes which exist *within* schedules. Periods have a distinct start and end date. They must be sequential and must not have any overlapping dates or gaps between periods.

Permission to add/edit schedules and periods

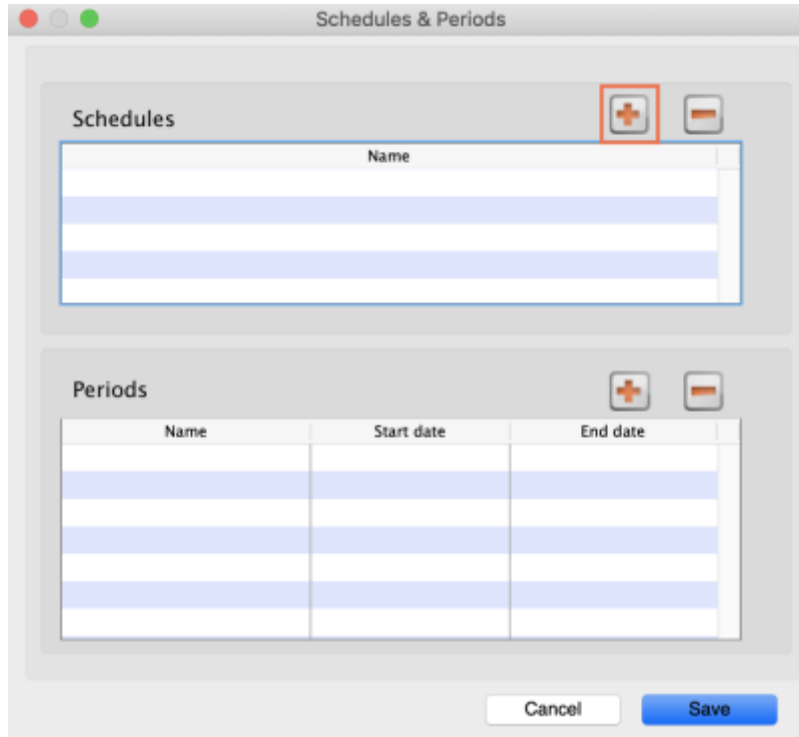

Schedules and periods can only be added and edited on the **central server**. Permission must be switched on for a user to perform this function.

1. Go to **Admin > Edit Users >** double click the user to be edited > **Permissions**.
2. In the Admin section, check the **Edit periods and period schedules** box.
3. Click **OK**.

Adding schedules and periods

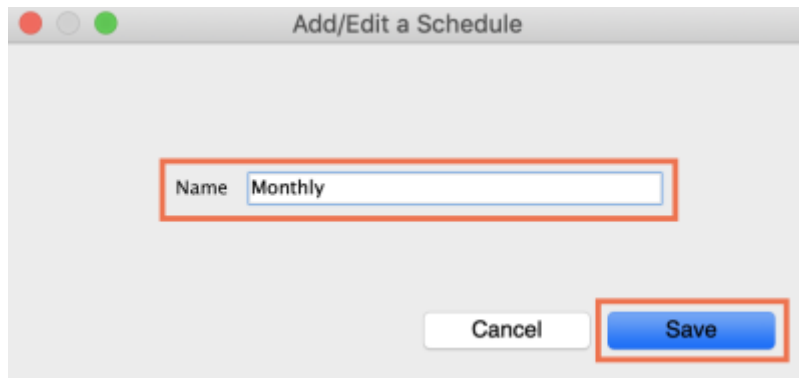

1. In the menu bar, click **Special** then **Periods...**

2. To create a new schedule, click the plus icon next to **Schedules**.

The screenshot shows a window titled "Schedules & Periods". It contains two main sections: "Schedules" and "Periods". The "Schedules" section has a table with one header row "Name" and three empty rows. A red box highlights a plus icon (+) to the right of the "Schedules" section header. The "Periods" section has a table with three header rows: "Name", "Start date", and "End date", followed by three empty rows. There are also plus and minus icons to the right of the "Periods" section header. At the bottom of the window are "Cancel" and "Save" buttons.

3. Name the schedule and click **Save**.

The screenshot shows a window titled "Add/Edit a Schedule". It contains a single text input field labeled "Name" with the text "Monthly" entered. A red box highlights the "Name" field. Below the field are "Cancel" and "Save" buttons. The "Save" button is highlighted with a red box.

4. To add periods within a schedule, highlight the schedule and click the plus icon next to **Periods**.
