25.04. How to remove stock lines that have '0' available

Occasionally users will come across stock lines in mSupply that cannot be removed easily. It almost like you have stock but you cannot carry our stock take or inventory adjustment to reduce the stock level to zero.

Below are two examples :

			Item details			
General	ltem name Parac	etamol 500mg tablet			Store: Ph	amacu

Above we have Paracetamol 500mg where for the highlighted batch (red square) we have a total of 100 but available is 0. This means that 100 in stock but all of this has be reserved for a customer.

Below is another example :

Last update: 2020/03/13 faq:how_to_remove_stock_lines_that_have_0_available https://docs.msupply.org.nz/faq:how_to_remove_stock_lines_that_have_0_available?rev=1584115037

For Amoxycillin 250mg we have 92 in total and 42 available. This means that we have 92 - 42 = 50 reserved for customers.

Handling reserved stock

Customer invoices that are of status "nw" or "sg" will end up reserving stock. This theoretically means that you have the stock but it cannot be used as it has been reserved by the invoices.

You as a manager will be required to view the "nw" and "sg" invoices and decide if they are still valid or not. If the invoices are valid then you should **"confirm"** them if not they can be deleted.

So search for customer or prescription that are of "nw" status. Follow the image below. Do customer > Show invoices... or patient > Show Prescriptions...

3/7

	Find transaction
	customer invoices
	15 most recent transactions, or:
status	ᅌ equals ᅌ nwl
	Complex Find Cancel Find

Search for "Status" equal to "nw" as above. If the "nw" invoices exist, then you will be shown a list. Double click to review. Delete if the invoice is not valid otherwise **"Confirm"**.

"nw" invoices will exist in the database if you have suffered un-expected hardware or network communication failure.

Now repeat similar for "sg" type invoices :

	Find transaction											
	customer invoices											
	15 most recent transactions, or:											
status	ᅌ equals 🔷 sg											
Use list view if one entry found												
	Complex Find Cancel Find											

"sg" invoices are part of the warehouse functions. You may have simply forgotten about these invoice or the customer lost interest in the order.

Your search for "nw" or "sg" invoice may result is the list below.

Note the highlighted "Status" column

Your job is now to review each invoice and to either **"confirm"** them or to delete them. Theses invoices may no longer be valid, you have to decide on this.

Confirming an invoice

Just in case, if you don't know this, then this is how you confirm the invoice.

Note the status detail. We want this to show "cn" and not "nw" or "sg" Hit the "confirm" truck.

For prescription, you won't see the "confirm" truck, simply review and click "OK" to close the prescription and mSupply will automatically confirm. For prescription, you will be facing "nw" invoices.

The result

Once all the "sg" and "nw" invoices are processed, then your stock figures should update and they shouldn't be any stock that has been held as reserve.

Below the images should speak for themselves. Please compare the image below with the ones above at the start of this topic.
