

Why is my stock on hold

Stock can be placed on hold a number of ways.

Location

Setting the location on hold can disable the stored stock from being distributed. Steps:

1. Find the Location of the Item on Hold
2. Items>Show Locations>Search the location
3. Double Click on the searched Location
4. Uncheck the Hold button.

The screenshot shows the 'Edit location' dialog box with the following fields and controls:

- Code: 04-12-5A
- Description: Meds 04-12-5A
- General tab selected
- Location type: None
- Parent: None
- Summary:
- Comment:
- Total Volume: 0 m3
- Volume used: 0 m3
- Priority: 0
- Hold: (A red callout bubble points to this checkbox with the text 'Uncheck Hold')
- Buttons: Delete, Cancel, OK, OK & Next
