

HIS preferences

*

Organisation name: Enter the hospital name here.

Country: Enter the country you are located in.

Max picture size: Enter the maximum size of patient pictures that can be inserted. We suggest you set this value to 500KB.

Maximum number of users: Enter the maximum number of users that can log into the HIS system at one time. For example, if you purchase a 10 user licence, and assign 6 users to the HIS system, it will allow 4 users to log in to the pharmacy (mSupply) module.

The screenshot shows a window titled "HIS Preferences" with a light gray background. It contains four input fields arranged vertically on the left side. The first field is labeled "Organization Name" and is empty. The second field is labeled "Country" and is empty. The third field is labeled "Max picture size" and contains the number "0", with "KB" written to its right. The fourth field is labeled "Max number of users" and is empty. At the bottom right of the window, there are two buttons: "Cancel" and "OK".
