

Invoice Authorisation

*

mSupply provides the feature of subjecting Customer and Supplier Invoices to authorisation. This feature allows a manager to control the processing of invoices and may be set to be allowed only by a restricted user or set of users. <note>Invoices that are subject to authorisation and are unauthorised are held in status 'sg' or suggested status. This means the official invoice can not be printed until the invoice is authorised.</note>

Configure mSupply for Invoice Authorisation

- First give the appropriate user the permission to manage authorisation of invoices.
- Click drop down menu **File> Edit Users...** double click the appropriate user and in the window that appears click on tab **Permissions (3)** and tick to turn on the **Edit Store Details** checkbox and click **OK**.

Configure mSupply for Invoice Authorisation

- Set Store preferences to allow for authorisation of invoices. Click drop down menu **Special> Store..** click tab **Preferences** and check boxes **Customer invoices must be authorised** and

Supplier invoices must be authorised. Click **OK** to return to the Navigator.

Create a Supplier Invoice for authorisation

From the Navigator click section [Suppliers](#) and click **New Supplier Invoice**. Enter your supplier and add items to the Invoice.

Click the **Authorised** button at the bottom left of the window.

Create a Customer Invoice for authorisation

From the Navigator click section [Customers](#) and click **New Customer Invoice**. Enter your customer and add items to the Invoice.
