# 4.01.16. Items - Log tab

*Back to Item Details window*

mSupply® maintains a record of any changes to an item's details - name, code or units. The log window displays a list of such changes, under the headings:

- Date
- Time
- User and Event
- Event Type

// Previous: **4.01.15. Items - Reporting tab** | Next: **4.01.17. Items - Requisitions tab** //
