

## 11.04. Cash register

The **Cash Register** allows you to see and create in and out payments for the customers and patients in your store. It also shows you the current balance of the cash register and you can use it to manage cash reconciliation in a store if you are using a physical cash repository of some sort.

Any payments made in the [customer receipts module](#), [supplier payments module](#) or [made on a prescription](#) will also be show here. Those payments differ to those made in this module in that they are attached to a transaction (customer invoice or prescription). Any payments made in this module are not attached to any other transactions.

### Viewing the cash register

1. Click the **Special** tab in the navigator.
2. Click the **Cash Register** button:

3. The **Cash Register** will open:

Number	Name	Type	Defined Reason	Comment	Amount	Confirm date

Current register balance 0 USD

Cancel OK

By default the window will show all of today's transactions when it opens but you can use the filters at the top in the *Filter by* section to see just the payments you want in the table.

The *Current register balance* shows you the current balance of all the in and out payments in the datafile - this is the amount of cash you should have in your physical cash repository if you're using one.

For each transaction in the table you can see:

- Who the cash was received from or paid to
- Payment type:
  - **rc** is a cash receipt (cash paid to you by a customer or patient)
  - **ps** is a cash payment (cash paid by you to a supplier)
- Amount received or paid, where a **positive** number is **cash in** and a **negative** number is **cash out**
- Date of the transaction
- Other details such as reasons and comments

## Adding or removing cash

All transactions involving payments will be *automatically* added to the cash register. Those payments are made using the customer receipts module, the supplier payments pmodule or by receiving payments on a prescription and all those payments are cponnected to their transaction.

You can use this cash register functionality to manually add **cash in** or take **cash out** from the cash register, without it being attached to another transaction. For example, this may be necessary for depositing cash in the bank.

You can set permissions to allow users to manually add **cash in** or take **cash out** from the cash register.

## Permissions for manual cash in/out transactions

Users need to have the **Create cash transactions** permission set on the **Permissions(2)** tab of the user's details window to be able to add or remove cash from the cash register. See the [Managing users](#) page for details.

## Manual cash in/out transactions

Once permissions are set:

1. Click the **Special** tab in the navigator.
2. Click the **Cash Register** button.
3. Click the **Add transaction** button. Note: If the user does not have permission to make cash register transactions, an error message will appear and they will not be able to proceed.

1	Gold medical supplies	ps		Payment of invoice(s) 12	-204	04/11/2019	fn

Current register balance: 1501 NPR

Cancel OK

4. Add the **Name** of the person/organisation to which the transaction relates.

**Add cash transaction**

Copy ID to Clipboard

Invoice Number: 2

Entered by: user 1 (pass= user)

Entry date: 04/11/2019

Confirm date:

**Name**  
National Bank  
NBK

**Transaction type**  
Cash out

**Amount**: 500

**Option**  
Bank deposit

**Description**  
Weekly bank deposit

**New cash register balance:** 1001  
NPR

Cancel OK

5. Select the **Transaction Type** from the dropdown list: **Cash out** (remove) or **Cash in** (add).

6. Enter the **Amount** of cash being removed or added.

**Add cash transaction**

Copy ID to Clipboard

Invoice Number: 2

Entered by: user 1 (pass= user)

Entry date: 04/11/2019

Confirm date:

**Name**

9. Click **OK**, then click **Save & Close** to finalise the transaction. Once finalised, the transaction can no longer be edited.

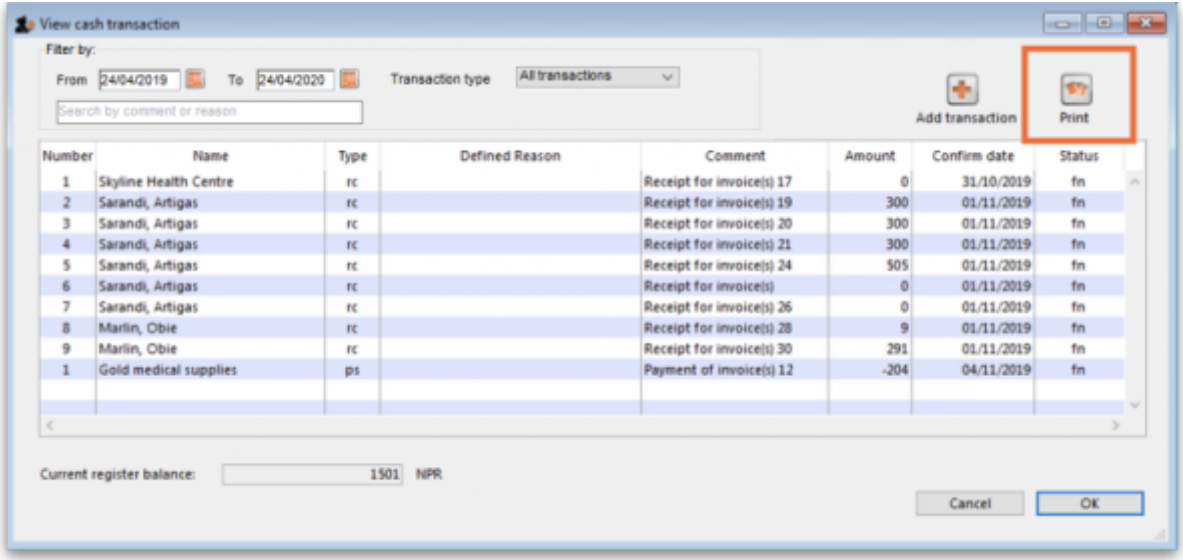

10. The new transaction will now appear in your cash register and the **Current register balance** will be updated.

## Printing a cash transaction report

1. Click the **Special** tab in the navigator.
2. Click the **Cash Register** button.
3. Click the **Print** button.

4. An Excel spreadsheet will open containing the same information as the cash register window. You can now save and/or print the spreadsheet from Excel.
