# 11.03. Prescription payments and credits

## **Prescription payment preferences**

To receive payments for prescriptions in a dispensary, go to **Dispensary Mode Preferences** and check the **Receive payments from prescription window** box.

Once activated, a **Payment** tab will appear in the *Prescription Entry* window:

| Patient details          | Name Patient, Test      |                | -                 | Date       | of birth | : 00/00/00        |                   | Female               | Store: AKPESSEK               | Black  |

### **Entering the payment**

To enter a payment from the Prescription Entry window:

1. Click on the **Payment** tab.

2. Enter the amount to be paid for this invoice today in the **Amount paid by patient** field, then press the *Tab* key on the keyboard:

Last update: 2020/05/18 payments\_and\_receipts:prescription\_payments https://docs.msupply.org.nz/payments\_and\_receipts:prescription\_payments?rev=1589810750 14:05

| This invoice   | Cheque #   | a payment is entered. |                          | Total outstan<br>Available cr<br>Amount paid by part | ding<br>redit | 300.00<br>0.00<br>300.00 |
| This invoice   | Cheque #   | i payment is entered. |                          | Total outstan<br>Available cr<br>Amount paid by part | ding<br>redit | 300.00<br>0.00<br>300.00 |

In this example, the invoice is \$300 and the patient will pay the full cost today in cash.

3. A confirmation window will open:

| This invoice           | will be automatically finalised if a pr | yment is entered.                                 | Patient's credit status                    |        | Total to pay  | 300                                   |
|                        | Note                                    |   | Current balance<br>Credit limit            | 0.00   |   | 0.00                                  |
|                        |   |   |  |        |   |                                       |
|                        |   |   | Payment details<br>Select the payment type |        | Amount paid by credit<br>Amount paid by patient<br>Total payment<br>Amount given<br>Change to give back | 0.00<br>300.00<br>300<br>500<br>200   |

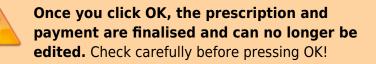

Enter the actual amount given by the patient in the **Cash given** field and press the *Tab* key on the keyboard. mSupply will calculate the change that must be given back to the patient and show it in the **Change required** field.

In this example, the invoice is \$300 and the patient is paying with a \$500 note. mSupply calculates the change to be returned is \$200.

If you have setup other payment types in the preferences (see 16.10. Options (standard reasons)) then you can select the type of payment being made in the **Payment type** drop down list.

**Please note**: You cannot overpay a prescription. If you edit the **Amount paid by patient** field to be more than the invoice total you will be shown a message and the **Amount paid by patient** will be reduced back down to the invoice total.

4. Click **OK** to **finalise** the prescription and payment and close the window (if a payment is entered the prescription will be automatically finalised, you have no choice). If the **Print receipt** checkbox is checked then a payment receipt will print at this point.

### Paying with credit

Patients can be given a credit limit (see 10.03. Patients) and can use some or all of that credit at any time to pay off some or all of a prescription. Patient credits (see below) will add to the amount of credit a patient can use. Credit will also be added to a patient when they return goods using a patient credit (see below).

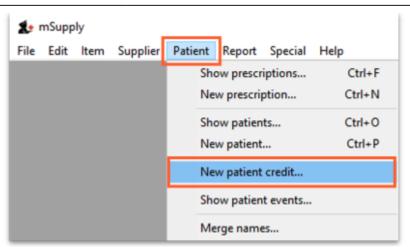

The process of using credit in a payment is exactly the same as a the payment process described above. The only difference is that, if the patient has some credit available, mSupply will automatically use as much as it can to pay for the patient's prescription. You can see the amount of credit used to pay for the prescription in the Amount paid by credit field:

- 1. On the prescription, click on the **Payment** tab.
- 2. Enter the amount to be paid for this invoice today, then press **OK**.

### **Patient credits**

You can allocate funds in a patient's favour by giving them a **Patient Credit**. You might need to do this if, for example, a patient returns faulty medicines they already paid for. Patient credits will be *subtracted* from future invoices until all credits are used.

1. In the menus, choose **Patient > New patient credit...**:

2. Enter the patient in the **Name** field just as you would for a prescription. You can also enter other details such as a **Reference** (e.g. the prescription number this patient credit is related to) and a **Note** explaining why a patient credit is being issued.

3. Click the **History** button to view the items previously dispensed to this patient:

| ew Patient Code: 10229487  | -          | Ŧ                                   |       | of birth | : 01/02/198 | 6        | Female      | Store: General<br>Entered 01/11/2019         | llack                |

| 01/11/2019 | 21     | CAR        | Amoxicillin 500mg tab/cap | 1        |            |  |
| 01/11/2019 | 23     | CAR        | Amoxicillin 500mg tab/cap | 1        |            |  |
| 01/11/2019 | 24     | CAR        | Amoxicillin 500mg tab/cap | 2        |            |  |
|            |        |            |                           |          |            |  |
|            |        |            |                           |          |            |  |
|            |        |            |                           |          |            |  |
|            |        |            |                           |          |            |  |
|            |        |            |                           |          |            |  |

5. Review the patient credit. Note that the price appears as a *negative* value in the patient credit window since it is a credit *to* the patient, not a charge.

You can also add items *not* linked to a patient's history by clicking the **New line** button and entering item details just like you would for a prescription.

If you *only* want to allow users to issue patient credits for items linked to a patient's history, turn on the **Limit patient credits to previously prescribed items** preference in the *Invoices 2* tab of **File > Preferences** (see Invoices 2 Preferences). This will disable the **New line** button, and all items must be selected from the **History** button. Last update: 2020/05/18 payments\_and\_receipts:prescription\_payments https://docs.msupply.org.nz/payments\_and\_receipts:prescription\_payments?rev=1589810750 14:05

#### 6. Once you are sure the patient credit is correct, check the **Finalise** box and click **OK**.

When the patient pays for their next prescription, their credit will be *automatically* applied in the Payment window.

In this example, the patient's current prescription is \$300 but they had a \$100 credit which is automatically applied to the invoice. Now, they only need to pay \$200.
