# 11.03. Prescription payments and credits

# **Prescription payment preferences**

To receive payments for prescriptions in a dispensary, go to **Dispensary Mode Preferences** and check the **Receive payments from prescription window** box.

Once activated, a **Payment** tab will appear in the *Prescription Entry* window:

Patient details	Name Patient, Test		Ļ		of birth	: 00/00/00		Female	Store: AKPESSEKF	Black 10 (CSR-D PUBL)
New Patient Prescriber Code:	Code: testp01 Search Prescriber	Ŧ	Confirm date : Prescription date	00/00/00	odress				Entered 27/04/2020 Invoice 289 Entered by Sussol	
New Ine I Items Payme	Delete line(s)	History Repeat			Re	Note	0	ategory Ne	ne v	ł
Line Locati 1	ABACAVIR 300 MG CP	tem Name		Quan 2	Pa 1	Batch fghj1234	Exp date 31/07/20	Sell Price 150.00	Price exten	300.00 ^
-										
										Ŷ
S i D	r Kent			Amou	•=	0.00 New note Delete note			Subtotal: 0% tax: 0% discount: Total: Amount Outstanding:	300.00 0.00 0.00 300.00 0.00

## **Entering the payment**

To enter a payment from the Prescription Entry window:

1. Click on the **Payment** tab.

2. The **Total payment** field shows the amount that needs to be paid by the patient. Enter the amount the patient actually gives you in the **Amount given** field, then press the *Tab* key on the keyboard:

Patient details	Name Pat Code: Tes			Ţ	I	ate of birth : 23/11/1974 Address :	Female			Black ESSEKRO (CSR-D P	UBLK
Prescriber Se Code:	arch Prescri			Confirm date : Prescription date		]			Entered 04/04		
Other details		_	_	_		То Рау	_		Invoice total	300.00	ï
This invoice	will be auton Cheque #	atically finalise	f if a payment is r	antered.		Dation*a cradit status			Total to pay	300	
This invoice		atically finalise	d if a payment is o	entered.	ŀ	Patient's credit status Current belance Credit limit		0.00 0.00	Total to pay Available credit		
This invoice	Cheque #	atically finalise	1 if a payment is r	entered.		Current balance Credit limit Payment details		00.0 An	Available credit nount paid by credit	0.00	
This invoice	Cheque #	atically finalise	1 if a payment is o	entered.		Current balance Credit limit		0.00 An Ame	Available credit	0.00 0.00 300.00 <b>300</b> 0	

3. In this example, the prescription cost is \$300 and the patient will pay with a \$500 note, so 500 is entered in the **Amount given** field and the *Tab* key pressed. mSupply then shows you the change that is to be given back to the patient in the **Change to give back** field:

New Patient	Name Patient, Test Code: Testp01	Ļ	Date of birth : 23/11/1974 Address :	Female		Store: AKPES Entered 04/06/2	Black SEKRO (CSR-D PUB 2020
Code:	earch Prescriber	Confirm date : 00/ Prescription date 04/	00/00 06/2020			Invoice 431 Entered by Sussol	I
Other details	t		То Рау			Invoice total	300.00
This invoice	will be automatically finalised if a p	ayment is entered.	Patient's credit status			Total to pay	309
	Note		Patient's credit status Current balance Credit limit		0.00 0.00	Available credit	0.00
			Payment details			ount paid by credit [	0.00
			Select the payment type	~	_	Total payment	300
					cr	Amount given hange to give back	200

If you have setup other payment types in the preferences (see 16.10. Options (standard reasons)) then you can select the type of payment being made in the **Payment type** drop down list.

**Please note**: You cannot overpay a prescription. If you edit the **Amount given** field to be more than the **Total payment** amount the **Amount given** field will be reduced to the **Total payment** amount and the **Change to give back** will be increased by the difference.

4. Click **OK** to **finalise** the prescription and payment and close the window (if a payment is entered the prescription will be automatically finalised, you have no choice). If the **Print receipt** checkbox is checked then a payment receipt will print at this point.

Once you click OK, the prescription and payment are finalised and can no longer be edited. Check carefully before pressing OK!

**Please note:** You can save a prescription without a payment when the *Receive payments from prescription window* preference is turned on (see the top of this page) but the prescription will not be finalised, it will only be confirmed. You will be warned and asked to confirm that this is what you want to do if you do not enter a payment. If you want to enter the prescription payment later, you can find the prescription, open it and enter the payment then.

# **Paying with credit**

Patients can be given a credit limit (see 10.03. Patients) and can use some or all of that credit at any time to pay off some or all of a prescription. Patient credits (see below) and cash paid into the cash register by a patient will add to the amount of credit a patient can use.

The process of using credit in a payment is exactly the same as the payment process described above, the only difference is that, if the patient has some credit available, mSupply will automatically use as much as it can to pay for the patient's prescription. You can see the amount of credit the patient has available (made up of their credit limit, patient credits and cash they have paid in) in the **Patient's credit status** section and the amount of credit used to pay for the prescription in the **Amount paid by credit** field:

wient details	Name Patient, T			Date of birth : 23/11/1974	Female		Black
New Patient	Code: Testp01	con.	1	Address :		Store: AKPESSEKF	RO (CSR-D PUBLI

	Cheque #	y finalised if a payment	t is entered.	Patient's credit status Current balance Credit limit		Total to pay	309
	Cheque #	y finalised if a payment	t is entered.	Patient's credit status Current balance Credit limit Payment details	100.00	Total to pay Available credit Amount paid by credit Amount paid by patient	300 100.00 100.00 200.00
	Cheque #	y finalised if a payment	l is entered.	Patient's credit status Current balance Credit limit	100.00	Total to pay Available credit Amount paid by credit	300 100.00 100.00
	Cheque #	y finalised if a payment	l is entered.	Patient's credit status Current balance Credit limit Payment details	100.00	Total to pay Available credit Amount paid by credit Amount paid by patient Total payment Amount given	300 100.00 100.00 200.00
	Cheque #	y finalised if a payment	I is entered.	Patient's credit status Current balance Credit limit Payment details	100.00	Total to pay Available credit Amount paid by credit Amount paid by patient Total payment	300 100.00 100.00 200.00 200

In this example, the patient has 100 credit available (made up of their credit limit only, which is 100) and all of that credit has been used to pay the prescription charge.

If you or the patient does not wish to use their credit, or wishes to reduce the amount of their credit used to pay the prescription, simply change the amount of credit used in the **Amount paid by credit** field and press the *Tab* key on the keyboard so that mSupply re-calculates the amount to be paid by the patient. Here is a screenshot if the patient in the example above decides to pay 250 towards their prescription and only use 50 of their credit:

2025/06/28 04:01

### **Patient credits**

You can allocate funds in a patient's favour by giving them a **Patient Credit**. You might need to do this if, for example, a patient returns faulty medicines they already paid for. Creating a patient credit increases the amount of credit a patient has. Patient credit can be used to pay for future prescriptions.

#### **View patient credits**

To view already created patient credits, choose **Patient > Show prescriptions** in the menus or click on the show prescriptions icon on the Patients tab of the Navigator:

In the filter window that appears, select the appropriate filter options and click on the **Find** button to show the prescriptions that match the filters (just click on the **Find** button without changing nything if you want to see the default 15 most recent prescriptions):

Patient credits have *cc* (for "customer credit") in the *Type* column, prescriptions have a type of *ci*. Iy you only wish to see patient credits then click on the **Customer credits** item on the left hand side.

#### **Create patient credits**

To create a new patient credit:

1. In the menus, choose **Patient > New patient credit...**:

2. Enter the patient in the **Name** field just as you would for a prescription. You can also enter other details such as a **Reference** (e.g. the prescription number this patient credit is related to) and a **Note** explaining why a patient credit is being issued.

3. Click the **History** button to view the items previously dispensed to this patient:

iew Patient Code: 10229		Ŧ		of birth	: 01/02/198	6	Female	Store: General Entered 01/11/2019	Black
Prescriber Search Prescriber Code: New line Delete line(s)	History	Confirm date : Prescription date		Re	erence Note	-	ategory Non-	Invoice 0 Entered by user 1 (pass- e ~	user1)
Line Location	Ren Name		Quan	Pac	Batch	Exp date	Sell Price	Price exten	
S i B E n	em: [		Amour	nt [	0.00			Subtotal	0.00
UNIC .			HOLES	•	New note			0 % tax: Total:	0.00

4. Select the item(s) to be returned from the patient's dispensing history, then click **Add to credit**. Multiple items may be added at once:

Date	Number	Prescriber	Item	Quantity	Directions	
01/11/2019	24	CAR	Amoxicillin 250mg tab/cap	1		
01/11/2019	19	CAR	Amoxicillin 500mg tab/cap	1		
01/11/2019	20	CAR	Amoxicillin 500mg tab/cap	1		
01/11/2019	21	CAR	Amoxicillin 500mg tab/cap	1		
01/11/2019	23	CAR	Amoxicillin 500mg tab/cap	1		
01/11/2019	24	CAR	Amoxicillin 500mg tab/cap	2		
_						

5. Review the patient credit. Note that the price appears as a *negative* value in the patient credit window since it is a credit *to* the patient, not a charge.

Patient details Name Sarandi, Artigas New Patient Code: 10229487 Prescriber Carretas, Julieta Code: CAR Mew line Delete line(s) New line Delete line(s)	Confirm date : Prescription date	00,00,00	kddress : Refe	01,02/1986 rence	Cate	gory None	Black Store: General Entered 01/11/2019 Invoice 22 Entered by user 1 (pass= user1)
Line Location Item Name Amoxicillin 500mg tab/cap		Quan 1	Pac	Batch YRT445	Exp date 31/01/2019	Sell Price 100.00	Price exten
	Print receipt	Amour	•	0.00 New note Delete not	e OK & N	est	Subtotal: -100.00 0 % tax: 0.00 Total: -100.00 Delete OK V

You can also add items *not* linked to a patient's history by clicking the **New line** button and entering item details just like you would for a prescription.

If you *only* want to allow users to issue patient credits for items linked to a patient's history, turn on the **Limit patient credits to previously prescribed items** preference in the *Invoices 2* tab of **File > Preferences** (see Invoices 2

Preferences). This will disable the **New line** button, and all items must be selected from the **History** button.

6. Once you are sure the patient credit is correct, check the **Finalise** box and click **OK**.

Remember you have also just returned items to your mSupply inventory! If you are going to destroy returned items, you now need to remove them from your mSupply inventory in a separate transaction (either a Reduce stock Inventory Adjustment or a Stocktake).

When the patient pays for their next prescription, their credit will be *automatically* applied in the Payment window.

In this example, the patient's current prescription is \$300 but they had a \$100 credit which is automatically applied to the invoice. Now, they only need to pay \$200.

# **Cancellations for prescription payments**

When a prescription is cancelled, any payment made against it is not automatically cancelled because the patient might give you the goods back but not receive a cash refund. However, a patient credit is automatically created equal to the amount of the payment and assigned to the patient. This means the patient is refunded in credit, not cash.

If you really wish to refund cash to the patient, you need to find the patient credit created for them, cancel it and then go to the cash register and enter a cash out transaction for the patient. This will appear as a "ps" type transaction in the register. It is a good idea to have a separate payment type *Option* (16.10. Options (standard reasons)) for this type of cash out payment to allow you to report on them separately from other types of cash out transactions.
