

13.06. Dispensary/prescription reports

Patient prescription notes report

Choose *Report > Dispensary > Patient prescription notes report* from the menus and the options window will open:

The dialog box titled "Patient prescription notes report" contains a "Date range" section with "From" and "To" date pickers set to 01/10/24 and 31/10/2024 respectively, and a "Previous month" dropdown menu. Below this is an unchecked checkbox labeled "Open report in Excel". At the bottom right are "Cancel" and "OK" buttons.

In the date range section select the confirmed date range of prescriptions you want to include in the report. The drop down list to the right of the date fields is a great way of quickly selecting them.

Check the **Open in Excel** checkbox if you want to open the report in Excel rather than as a pdf or to print it then click on the **OK** button to run the report. This is what the report looks like:
