12.05. Requisition reports

You can report on requisitions in 2 ways:

- grouped by item, showing which customers the item was requisitioned by, what has been sent and what is outstanding or
- grouped by customer, showing which items a customer has requisitioned, what has been sent and what is outstanding.

You can access the reports from the *Reports* > *Requisitions* menu option of by clicking on the *Requisitions* option on the Reports tab of the navigator:

0 0 0	mSupp	ly navigator

and	Customer group is Don't Care
	Cancel OK

Use the **Report type** drop down list to select which type of report you would like: Grouped by item or grouped by customer.

The **Requisition filter** settings enable you to select which requisitions you want to include in the reports, based on their entry date (this month so far is set by default but note the quick date selection drop down list and the date pickers to enable quick selection of reporting dates) or status.

If you leave the **Include lines that have been fully supplied** checkbox unchecked, the report will only include lines where not all the stock requested has been sent to the customer i.e. outstanding requisition lines only. If you check the checkbox, all requisition lines will be included in the report.

The **Item filter** section allows you to select which items will appear in the report (only requisition lines for items matching these filters will be included in the report. If you don't set any of these, there will be no filtering by item.

Finally, the **Requisition customer filter** section allows you to select the customers whose requisitions will be included in the report. If you don't set anything in this section, requisitions for all customers will be included in the report.

Example output

These are examples of what the requisition reports like like:

Grouped by item

		Requisitions grouped by item for requisitions entered from "From date" to "To date"									
item name	Our stock on hand	Requisition ID	Customer name	Requisition	Status	Туре	Requisition	Their stock on hand	Quantity	Quantity already issued	To be Supplied
ALBENDAZOLE, 200mg, tab	5000	1234		R234	sg	request	10/11/17	0	500	100	400
		1235	Metta	R296	56	request	11/11/17	1	22	4	18
