

## Temperature & VVM

### temperature\_breach

| Field number | Field Name                   | Description | Type  | Length | Index |
|--------------|------------------------------|-------------|-------|--------|-------|
| 4            | end_date                     |             | Date  |        |       |
| 5            | end_time                     |             | Time  |        |       |
| 1            | ID                           |             | Alpha |        | Y     |
| 6            | location_ID                  |             | Alpha |        |       |
| 2            | start_date                   |             | Date  |        |       |
| 3            | start_time                   |             | Time  |        |       |
| 7            | store_ID                     |             | Alpha |        |       |
| 8            | temperature_breach_config_ID |             | Alpha |        |       |

### temperature\_breach\_config

| Field number | Field Name          | Description | Type         | Length | Index |
|--------------|---------------------|-------------|--------------|--------|-------|
| 5            | colour              |             | Alpha        |        |       |
| 6            | description         |             | Alpha        |        |       |
| 4            | duration            |             | Long Integer |        |       |
| 1            | ID                  |             | Alpha        |        | Y     |
| 2            | maximum_temperature |             | Real         |        |       |
| 3            | minimum_temperature |             | Real         |        |       |

### temperature\_log

| Field number | Field Name            | Description | Type  | Length | Index |
|--------------|-----------------------|-------------|-------|--------|-------|
| 3            | date                  |             | Date  |        |       |
| 1            | ID                    |             | Alpha |        | Y     |
| 5            | location_ID           |             | Alpha |        |       |
| 7            | store_ID              |             | Alpha |        |       |
| 2            | temperature           |             | Real  |        | Y     |
| 6            | temperature_breach_ID |             | Alpha |        |       |
| 4            | time                  |             | Time  |        |       |

### vaccine\_vial\_monitor\_status

| Field number | Field Name  | Description | Type         | Length | Index |
|--------------|-------------|-------------|--------------|--------|-------|
| 3            | code        |             | Alpha        |        |       |
| 2            | description |             | Alpha        |        |       |
| 1            | ID          |             | Alpha        |        | Y     |
| 5            | is_active   |             | Boolean      |        |       |
| 4            | level       |             | Long Integer |        |       |

### vaccine\_vial\_monitor\_status\_log

| Field number | Field Name | Description | Type | Length | Index |
|--------------|------------|-------------|------|--------|-------|
| 3            | date       |             | Date |        |       |

| Field number | Field Name   | Description | Type  | Length | Index |
|--------------|--------------|-------------|-------|--------|-------|
| 1            | ID           |             | Alpha |        | Y     |
| 5            | item_line_ID |             | Alpha |        |       |
| 2            | status_ID    |             | Alpha |        |       |
| 6            | store_ID     |             | Alpha |        |       |
| 4            | time         |             | Time  |        |       |
