## **18.08. Tender currencies**

You will have noticed that responses from suppliers can be received in any currency in an mSupply tender. For comparison with other tender lines, all lines are converted to the home currency of the datafile using a rate that is defined by the user. These rates are stored and managed separately for each tender so that historical records of the rates used in any particular tender are retained permananetly. The rates used for currency conversion throughout mSupply will change over time to keep up with fluctuations but any such changes will not affect tenders and their historical records.

The conversion rates used for each currency in a tender are shown and managed on the *Currencies* tab, which looks like this:

		3 11:59:33 Months stock					
Creation dat	e 23/03/23	k/03/23 Issue date 23/03/23 Response by Date/Time 22/04/22 00:00 Status: cn Locked					
Serial Number	r: 14 Ou	r reference AUTO14					
Commer	it Auto generated tend	er created on 23/03/23 a	t 11:59:33 by Admin	with 2033 items.			
Items and Compa	re Prices Notes Choo	ose Suppliers and Enter re	sponses Standard c	onditions Purchase or	ders Reference documents	Tender preferences Synchronise	Log Currencies
Update Selected	l Rates Get Central	Supply Rates Get	Internet Rates				
Currency	Tender Rate	Last Updated	New Rate	New Rate Date	Number of Quote Lines	Adjusted Total Value	2
ISD	1		1		1222	1806272063	
ND	0.678005	9/05/23	0.678005	9/05/23	0	0	
NR	0.012227	9/05/23	0.012227	9/05/23	0	0	
0	0.451386	9/05/23	0.451386	9/05/23	1342	895234825.18	
IZD	0.634025	9/05/23	0.634025	9/05/23	1222	1146898133.65	

Whenever a tender is created all foreign currencies with their current rates are added to the table. If a new currency is added to mSupply (see the 26.10. Currencies page for details) then it is added to this table. When responses are downloaded from the Health Supply Hub (HSH), any currencies used but not already in this table are added.

The columns in the table display the following:

- **Currency:** The three letter abbreviation of the currency.
- **Tender Rate:** The rate used to convert this currency to the home currency of the datafile.
- Last Updated: The date the rate was last updated (empty if it has never been updated in the tender).
- New Rate: The new rate to set the Tender Rate to (doesn't do anything until the Update Selected Rates button is clicked).
- New Rate Date: The date to say the rate was updated on.
- Number of Quote Lines: The number of supplier response lines on this tender that use this currency.

1/2

• Adjusted Cost: The total value of the supoplier response lines using this currency in this tender.
