

# 18.10. Supplier instructions for submitting tenders via Excel

## Introduction to the tender response template

As a supplier, you may be invited to participate in a tender managed using mSupply. The client may send you a tender response template Excel document in xlsx format, which you are expected to complete and submit for evaluation. This allows the client to import bid responses from multiple suppliers, and easily compare them within the mSupply Tender Module.

You must use Microsoft Excel 2016 or newer to view and edit the tender template.

The tender template will look like this. You can also download a reference template from here:

[supplier\\_tender\\_reference\\_template.xlsx](#)

The **yellow** section contains the item that you may bid for. **Do not modify any contents of the yellow section.**

The **blue** section is where you can enter the price for the items you wish to bid on.

Internal Line ID	Line #	Item Code#	Item Name	Requested Number of packs	Requested Pack size	Requested Total Qty	Units	Offered Pack size	Offered price per pack (DAT Delivered at Terminal)	Currency
21A7C06A60137A44BE58	1	acw250r	Acetazolamide 250mg tab	100	10	1000	ea.			
A522331036931	2	alb25	Albumin, human irreducible sol, 25%	200	10	2000	ea.			
FC6E30C1940D54453FE1C	3	bup25	Bupivacaine hydrochloride 0.25% inj	250	5	1250	ea.			

The Excel template contains three worksheets. **Do not modify the name of the worksheets.**

- **TenderItems:** Main worksheet containing the tender items, as shown above.
- **ManufacturerList:** Contains the manufacturers that populate the [manufacturer dropdown list](#) in the main worksheet. If a new manufacturer is required, add it directly in the TenderItems worksheet.
- **CurrencyList:** Contains the available currencies that populate the [currency dropdown list](#) in the main worksheet. If a new currency is required, add it directly in the TenderItems worksheet.

The currency and the manufacturer column should appear as a [dropdown list](#). If this doesn't work, please make sure you are using Microsoft Excel and that the version supports xlsx file format.

Do not change the cell format. If the cell is set to text or number, then it must be left as it is. Changing the cell to a different format will cause issues later with information potentially being lost.

The Excel file has the header row frozen, allowing you to scroll down the list and enter data while still being able to view the corresponding header.

## Completing the tender response template
